ANNUAL CATALOGUE

OF FRUIT AND ORNAMENTAL TREES AND PLANTS,

CULTIVATED AND FOR SALE

AT THE

Brighton Nurseries,

BY

MESSRS WINSHIP.

BOSTON:

TUTTLE AND WEEKS, PRINTERS,
No. 8, School Street.
1833.
INTRODUCTORY OBSERVATIONS.

Those gentlemen who are desirous of having a succession of fruit and who may not be familiar with the necessary varieties, by leaving the selection of the fruit trees to the discretion of the proprietors, can depend upon having such kinds as are most suitable. It being understood in every case where extra large plants are ordered, an additional price will be charged.

In the selection of Roses, the proprietors have spared neither pains nor expense, and they are happy in being now able to offer the public as choice a variety of that favorite flower, as has ever been exhibited in this country, embracing over three hundred desirable kinds. In addition to the splendid varieties of Scotch Roses which were so much admired the last season, and the best kinds which have since been selected from nurseries in this vicinity, they have now under cultivation and ready for sale all the fine varieties of Roses which are grown in England, presented to this establishment by Admiral Sir Isaac Coffin, Bart. A section of their ground has been exclusively appropriated to these plants, and labels corresponding to the numbers on the catalogue have been attached, in order that the peculiar beauty of each may be easily examined and selections made when in bloom by the purchaser.

The collection of Pæonies is also very splendid, embracing over forty varieties of the most rare kinds.

Orders may be addressed, via mail, to Messrs Winship, Brighton. All plants securely packed, according to their destination, to any place or country. Transportation to Boston free of expense to the purchasers.
CATALOGUE.

APPLES.

THIRTY-THREE CENTS.

1 Russets 28 Mill Flower
